## **POSSIBILITIES (Unrefined)**

### **Attaché Business:**

Lohi'i means Dream - so maybe change Lihi & Lihi'i to Lohi and Lohi'i

Ahupua'a - from sea to tip of mountain, wedges of land, containing everything needed to survive

New guy (replacement at next island over),  
the boss,

### **Guest Vistors**

movie star romance with Cliff (give him jewelry when leaves, why doesn't he go... she's still looking for something... I've already found it,, empty hollow, begs for him to come with)...  
volcano science project (vog),  
new age retreat, meditation, red hullicinatory drug???,

Poker Night - surfers brought game. Maybe we should play for, you know, who gets to pack the picnic and who gets to eat?  
Every Room Booked - Lihi, tells Kami, Massive Waves (celebrity surfer comes to town, and they have a competition)

Kane grows Cocoa, Coffee, Mangosteen, in seritipous clumps about the highland (rumors that he grows ganga as well). Islanders and parents have all the low country land staked out. He hunts pigs. Can't get a proper lease from the island. Perhaps has it in for the hotel, as they can operate beyond the law whereas he cannot. 99 year lease, 80 years ago, grandfather built, hotel is crumbling about (rebuild for 20 years? Why?)
